

### **Economics Summer assignment 2017**

- Over summer you must look for a news story that you think has an economic angle...
- This could be a big issue like Brexit, a local issue to do with council funding of a service, or even footballers' wage rates in the transfer window!
- You should follow this story over the summer break, and prepare a report or presentation for the first week back.

### **Summer assignment**

---

- You will be expected to have a minimum of a one page report, and the more you can bring of interest, e.g. news clippings, videos etc. the more interesting our first week together will be for everybody.
