

Stoke Newington Summer A-Level Physics Assignment, 2018.

We want students that are refreshed and eager to take on the challenge and excitement of A-Level Physics, therefore your summer task is to complete some questions on an online portal developed and run by Cambridge University called Isaac Physics.

The purpose of the task is to keep you thinking about problem solving and use of mathematics within physics over the summer period, you can work with others or work alone and you can get in touch if you have any queries. The questions are at GCSE level but **the style of questions is designed to challenge you.**

To access this task you will need to sign up to Isaac Physics at <https://isaacphysics.org/register> entering name and email address.

From there you need to join the Stoke Newington 2018 Summer Assignment group, either by going to: <https://isaacphysics.org/account?authToken=8FRFKY> or by entering the following code into the 'Teacher Connections' tab on the 'My Account' page: **8FRFKY**. You will be asked to connect to Mr Whitaker on Isaac Physics at this point.

Now the assignment will appear under 'My Assignments' and you can begin. Get in touch if you have queries. We are able to see who has completed the different questions, but not individual answers, attempts or number of tries at a question.

Have a good summer: see you in September – The Physics Team Mr McLean & Mr Whitaker

Any issues please get in touch:

Mr Whitaker
