

6th May, 2016.

Dear parents and carers,

Stoke Newington School & Sixth Form is working towards a national award called Investor in Careers. This is awarded to schools/colleges who demonstrate a high quality careers programme that is continually being developed to meet their students' needs.

With the world of work and employment opportunities changing rapidly, it is crucial that students get good careers education, guidance and employability skills whilst at school/college.

By working towards the prestigious Investor in Careers award, our students can be confident that Stoke Newington School & Sixth Form is committed to providing the highest quality careers provision to help them make the best next steps into their future.

We actively encourage the participation of parents/carers in all aspects of our careers provision. If you have any comments or support you would like to give to any of our existing activities, Year 10 & Year 12 work experience, Year 10 careers speed networking, Year 11 post 16 taster day, apprenticeship day, Y8 options day, the livery fair enterprise event, STEM day, medicine day, trips, talks or opportunities, or suggestions for new ones, please contact me.

Best wishes

Juliet Alexander,
Careers, Work Related Learning & Enterprise Manager.
